

The VISION

"Where there is no vision, the people perish ..." Proverbs 29:18

The Monthly Newsletter of Mission To Haiti

February 2013/Number 398

Your Sponsorship Provides Health Care

These checks are helping to identify children who are sick and need further treatment. From there, they can come to the clinic to see Dr. Francois. We are working on the clinic building to be fully functional as soon as possible.

When you sponsor a child with Mission To Haiti, you provide your child with the opportunity to receive medical care. Sponsorship is \$35 per month. It provides, education, nutrition, and health care. There are children waiting to be sponsored at missiontohaiti.org

Recently, we began working with a local Haitian doctor to see sponsored children who are sick. We have asked Dr. Lens Francois to be available at the clinic one day a week. Dr. Francois (*above*) has his own medical practice and is licensed by the government of Haiti.

This will give our sponsored children an opportunity to make an appointment to see Dr. Francois. If necessary, he will run lab tests

and provide prescription drugs to treat medical problems. Infections, malaria, and other diseases are common among Haitian children. King's Hospital continues to see children who have medical emergencies or who need surgery.

Our clinic supervisor Suzanne Labady and our nurse Claudette Chantrel are seeing children during the week in the wellness checks at the schools.

Our next Mission Team will be April 13 - 20

Partnership In Missions

Serving On The Mission Field

Junior Hyppolite was one of Mission To Haiti's first sponsored children. Today, Junior is a dedicated servant in the same community where he grew up. Our sponsored graduates are serving in business and various positions across Haiti.

Junior finished his schooling with distinction. He is now married and has three children. Junior is one of 25 employees of Mission To Haiti. You support for this ministry is greatly appreciated. It brings benefit to many in the country of Haiti.

Life Is Hard In Haiti

There is an expression, "Life is hard in Haiti." We recently visited the community of Lestere where we support the local church school. It is located in the Artibonite valley, one of the poorest parts of Haiti. Workers earn 50¢ a day.

Food is critical in these poor areas. You can provide a bag of food for \$20. It is enough for a family for a week. You can provide food for 10 families for \$200. Your help is greatly appreciated.

Religion In The Country Of Haiti

The Haitian people are very spiritually minded. They are acutely aware that there is life after death. The Gospel message of eternal life through Jesus Christ is not difficult for them to understand. However, voodoo and witchcraft are still very prominent in Haiti. They have enslaved the Haitian people for two centuries. All they offer is bondage to a false religion. Pictured to the left is a lady wearing a red and blue dress. This indicates that she is the wife of a witchdoctor.

Since the earthquake, hundreds of witchdoctors and thousands of people who practice voodoo have turned to Christ. Hundreds of adults and children have come to Christ through the work and ministry of Mission To Haiti. Your prayers and financial support allow us to continue reaching Haitians with the life-changing message of the Gospel.

Serving Together

Chris and Bonnie Webb were married on December 29th. They are our newest missionaries. They are committed to serving the Lord together in Haiti. Your support for them is greatly appreciated.
