## Food For Families Needed During COVID-19

Dear friends, last month, we asked for special help to distribute food to all the families in our sponsored schools. Thank you for your response! We were able to give 200 family packages of beans and rice to the children at Bonnette. Every family received food to bring home. You can imagine the joy they felt to get these special gifts.

In April, we began giving food to the sponsored children to bring home to their families. We have continued to provide food in place of school lunches during this time of COVID-19. Your special offerings have allowed us to maximize our ability to provide more food.

These special distributions help to stabilize these families. At a time when Haitians are having difficulty finding work, these special distributions provide families with a needed respite from the hardships of life. They also encourage them to keep moving forward.

The churches and schools use these special distributions as a Gospel witness to their community. Often, new families are drawn into the church and school because of the testimony of events like these. Long after these distributions are over, pastors and principals are able to minister to people who are hungry for more than just food.

### How You Can Help

We would like to continue holding these special distributions for the children at our schools who do not have a sponsor. It will cost \$2,000 per school to provide food for these families. We have 6 schools who are still waiting for a special food distribution.

Your prayers and offerings for these distributions will provide much needed relief at this critical time. We are praying that things will return to normal soon. We are committed to supporting these children so they can be equipped to change Haiti for Christ. Thank you for your support.

# Partnership In Missions

## Hand Washing Buckets Continue To Help

Hand washing buckets are still in great demand in Haiti. Recently, Junior and our sponsorship crew bought another 9 dozen buckets and supplies. When the sponsored children came to the mission campus recently to receive gifts sent by their sponsors, they also got a bucket and soap to bring home as pictured below. This is an effective way to distribute them to villages where we serve and put them in the hands of families who need them.

We want to continue giving hand washing buckets to our sponsored children. We need your help. It cost \$165 to provide a dozen buckets. Your offerings will allow this effort to continue.

## Our Founders' Challenge: Our People

During this time of COVID-19, our Haitian Partners are staying busy. They are delivering your love and support through the clinic, sponsorship gifts and food distributions.

Founders' Challenge offerings undergird their work. So far, we have received \$10,750. We need \$65,000 to cover the Operating Expenses in Haiti this year. Your offerings large and small keep them moving forward.

Our Haitian Partners

## School Books For Your Sponsored Child

Thank you for your offerings to buy your sponsored children text books for the new school year. As soon as the new school books are available, we will begin buying them and preparing them to distribute.

It costs \$50 to buy a set of text books in Haiti. We would like to ask you to give \$50 so your sponsored child can have their own set of books. When school begins in September, we will deliver the books to your child and get a picture of them proudly holding their new books. Thank you for giving.

## Team Dates

*We have decided to cancel our scheduled summer mission teams. After flights resume, we will set new dates.*
