Sherril and I and our family want to wish you a Happy New Year for 2022. There are many reasons to praise the Lord. Much was accomplished in 2021 which we will report on in the coming newsletters. Bill III and Filomaine were married in October. We are so happy that our family is growing. The Lord provided abundantly through your generous offerings in 2021. However, this is only the beginning.

God is preparing Mission To Haiti for a greater work on the mission field. The accomplishments of last year are a springboard to the opportunities that God is able fulfill in 2022. The pastors and principals are ready to grow their ministries. More young people are enrolling into the schools and vocational programs. That means they need more food, supplies and resources. It also means they need more help. Your prayers and financial support are vital for this new growth.

More than ever, Haitian children and young people need to be equipped with the Gospel and the training to change Haiti for Christ. Your prayers and support make this possible. Thank you for giving!

"Where there is no vision, the people perish..." Proverbs 29:18

Partnership In Missions

Sponsorship Brings Children To Christ

Junior with children from the Cazeau school

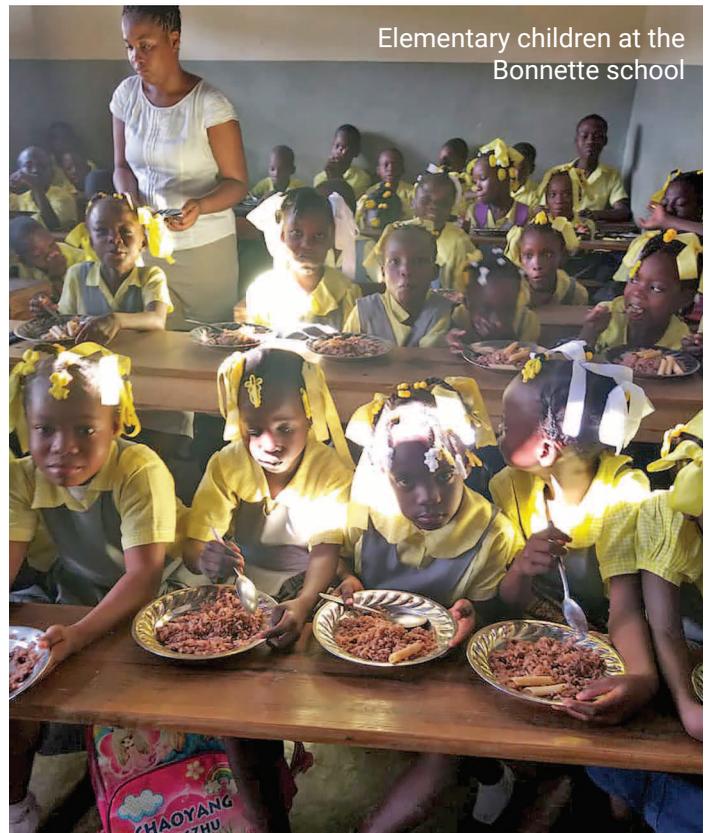

In many ways, 2021 was a difficult year. In other ways, it proved to be a very good year. The pandemic caused more families to turn to the churches and schools for help for things they cannot provide themselves. This has caused Mission To Haiti to expand its capacity for ministry. Needs turned into new opportunities for ministry. Reaching new children brought more children to salvation in Jesus Christ.

Two years ago our campus caretaker and his family felt led to begin afternoon Bible clubs for the neighborhood children. Schools had temporarily closed and the children were drawn to the Bible stories, singing and fellowship. Since then the Bible clubs have grown with new children. Mackenson recently said that in 2021, forty children accepted Christ at these Bible clubs.

Expanding the school meals has the capacity to draw many new children and young people into the schools. It is an effective way to address the pressing need of hunger. It introduces new children and families to the churches. It provides the means for growth in a manageable way.

Right now, the schools are receiving \$1,500 a month in additional food money. The schools are ready to receive more. Increasing the expanded school meals to \$2,000 a month will allow the schools to grow and do even more.

Please give to the expanded school meals. Your support will help children hear the Gospel.
